

In 1990, the Peregrine Society began putting smiles on the faces of childhood cancer by sponsoring a three day, all expense paid, trip to Branson for young patients and their families, about 100 people in all. A three day weekend where the patient can be a kid...where treatments and doctor visits can be left behind.

The approximate cost of the trip for a family of four is \$1,000. By making a donation to benefit this activity, you will become our partner in the important work of putting smiles on the many faces of childhood cancer.

A copy of many of the weekend activities are included in this brochure. But to get a real feel of the weekend, the pictures say it better than we ever could. Your generosity is appreciated because until there's a cure...there's Peregrine.
